PURPOSE: To record as a permanent top serial in each original file of all COINTELPRO material, located in the Freedom of Information/Privacy Acts (FOIPA) Reading Room. This serial is to ensure the original document has been compared with the Reading Room copy and that markings on both documents are consistent.

RECOMMENDATION: That each disclosure analyst in FOIPA, Document Classification Appeals and Affidavits Unit (DCAAU) and Legal Counsel Division (LCD), be made aware of this memorandum and follow the established procedures.

DETAILS: During a recent review of preprocessed material, located in the FBI FOIPA Reading Room, it was determined that there were some instances where the Reading Room copy and the original file copy were marked differently as to classification.

COUNTERINTELLIGENCE - BORDER
COVERAGE PROGRAM

~~CONFIDENTIAL~~

ReBulet 11-14-60, captioned "BOCOV," which set forth action taken on the recommendations made by the 10/24-25/60 Border Coverage Conference which was held at San Diego. That letter in part advised that there is definitely a place for consideration of some of the tactics currently employed in the Counterintelligence Program on the Border Coverage Program. It was pointed out that the five border offices and the Legal Attache's Office should be alert for the application of disruptive tactics and in each case should clear with the Bureau in advance any suggestions along those lines.

It is believed that sufficient time has now elapsed for each office to have made an analytical study of the situation faced by it and should be in a position to furnish suggestions to the Bureau regarding means which could be taken to apply counterintelligence tactics where such tactics may be feasible.

In connection with the Counterintelligence-Border Coverage Program, the best method for disorganizing the Communist Party (CP) or related organizations is disruption from within. This can be done through the use of selected informants under proper guidance to raise controversial issues within the organization, to make legitimate criticisms of organizational operations, activities, or lack of activities, or to bring out into the open latent factionalism. In connection with this program, it must be borne in mind that harassment is not to be undertaken merely for the sake of harassment but in each instance the tactics are to be undertaken with a specific purpose in mind of disrupting communist and related activities.

Letter to SAC, San Diego

Re: COUNTERINTELLIGENCE - BORDER COVERAGE PROGRAM

~~CONFIDENTIAL~~

1. Selection of Informants - An analysis of the available informants should be made by each office with counterintelligence potential in order to select those informants who could be used for disruptive tactics. Each informant approved for use in connection with counterintelligence operation will, of course, have to be briefed individually on issues and controversial subjects which are to be raised. The informants should [redacted]

b7E

[redacted] Bureau approval must be obtained for the informants selected for this operation before the informant is briefed. In the event a review of the available informants shows that additional informants with counterintelligence possibilities are needed, plans should be laid to develop such informants, bearing in mind that this is a long-range program. The analysis should also include the adequacy of informants who can keep the office effectively advised of the internal operations of the organizations involved so that disruptive tactics can be undertaken on a sound basis.

2. Organizational Tactics - Consideration should be given to [redacted]

[redacted] Consideration should be given to the possibility of having [redacted]

b7E

[redacted] All border coverage Agents in offices with counterintelligence potential should be alert for any tactics of this type which can be used.

3. Psychological Tactics - Consideration should be given to activities to disillusion CP leaders through anonymous mailing of literature regarding the weaknesses and inhumanitarian aspects of the communists either as a party or as individuals. The Mexico City Office particularly should be alert for any such newspaper

~~CONFIDENTIAL~~

Letter to SAC, San Diego

Re: COUNTERINTELLIGENCE - BORDER COVERAGE PROGRAM

or magazine articles which could be clipped and mailed to susceptible communist leaders either in Mexico or in the border area.

4. Neutralization of Individuals - Consideration should be given to tactics which would bring individual communist leaders under suspicion of being "imperialist agents," agents provocateur, etc., or generally discrediting them in the eyes of their fellow communists.

The Bureau will consider any well-conceived plan of causing disruption inside the CP or related organizations. In any counterintelligence operation, however, it is imperative that the office submitting the recommendations make sure that it will not jeopardize informant coverage or cause embarrassment to the Bureau.

Consideration should be given to the possibility of setting up thoroughly safe cutout arrangements for contacts with good newspaper sources through which information can be fed to the press regarding semipublic procommunist meetings or communist domination of front groups and through which information can be fed to the press to produce bad publicity relative to CP activities. Any proposals to set up such an arrangement must be submitted to the Bureau for approval before implementing them.

The Bureau appreciates the fact that Albuquerque, through absolute lack of communist activity, is not in a position to implement a counterintelligence program; however, a copy of this communication is being sent for information of that office.

The San Antonio Office has no organized communist group at the present time outside of Santa Apolonia. In considering whether disruptive tactics should be undertaken by that office at this time, San Antonio should give consideration

Letter to SAC, San Diego
Re: COUNTERINTELLIGENCE - BORDER COVERAGE PROGRAM

to the possibility that disruptive tactics in the Santa Apolonia area at present might make coverage of the activities of that group more difficult and any disruptive tactics recommended should be conceived in a manner which will not destroy the ability of San Antonio to continue ~~CONFIDENTIAL~~ communist activities in Santa Apolonia. Consideration should be given, however, to the possibility of utilizing disruptive tactics, through raising controversial issues, among the various communist sympathizers or former CP members who are still considered to be sympathetic to communism in order to make sure that those groups continue to be disorganized.

In view of the ineffectual operations of the CP in Juarez and the excellent informant coverage existing in that group at the present time, it would appear that disruptive tactics among the CP cells in Juarez may not be desirable. El Paso, however, should give consideration to possible use of disruptive tactics, through raising controversial issues and sharpening antagonisms, among the communist sympathizers and former communists who are still sympathetic to the communist movement in the Juarez area. El Paso should also submit its observations regarding the possibility of using informants to raise controversial issues in the Chihuahua State Committee of the CP of Mexico. Any recommendations along this line will be referred by the Bureau to the Legal Attache's Office, Mexico, for comment to insure that such tactics will not destroy existing informant coverage of that office in the Chihuahua State Committee.

Both El Paso and San Antonio should give consideration to the possibility of using discrediting techniques in connection with individual communists who, although not active members of the CP, are a threat to the security of the United States in order to bring out into the open their communist sympathies and destroy their potential usefulness as Soviet intelligence agents or to neutralize their propaganda value to the communist movement.

The Phoenix Office should give consideration to the possible use of disruptive tactics to further divide the pro-communist groups in their area and to sharpen antagonisms without jeopardizing established informant coverage. In this connection, consideration might also be given to possible means of focusing public attention, through highly discreet operations, on the communist affiliations and sympathies of communist sympathizers or adherents.

~~CONFIDENTIAL~~

Letter to SAC, San Diego
Re: COUNTERINTELLIGENCE - BORDER COVERAGE PROGRAM

It would appear that the broadest use intelligence tactics could be made by the San Diego and Mexico City Offices due to the highly-organized communist groups in the area covered by them. Those offices should, therefore, submit to the Bureau their analyses of the counter-intelligence potential in their areas and particular attention should be paid to the possibility of undertaking such tactics in connection with the Popular Socialist Party as well as the CP and its related organizations. Any specific tactics decided upon, however, must be submitted to the Bureau for approval before implementation.

~~CONFIDENTIAL~~
CA
MEXICO

Both as to the instructions contained in this letter and prior instructions issued regarding counter-intelligence operations in connection with the Border Coverage Program, you are cautioned that no action should be taken to implement such procedures without specific clearance and approval by the Bureau.

Attention is called to the fact that a new file has been opened at the Bureau, under file number 100-434445, for correspondence relating to this project. The following sub files will be designated at the Bureau for correspondence from the individual offices relating to this project:

El Paso - 100-434445-16
Phoenix - 100-434445-38
San Antonio - 100-434445-45
San Diego - 100-434445-46
Mexico City - 100-434445-221

Correspondence directed to the Bureau by each office should utilize the appropriate file number indicated above. Each office should open a separate file concerning this project and appropriate steps should be taken to insure that the file is kept under fully secure conditions and is given only restricted accessibility so that it will be available only to appropriate personnel on a need-to-know basis.

DATE: 4-6-61

FROM : R. O. L'ALLIER

~~CONFIDENTIAL~~

SUBJECT: COUNTERINTELLIGENCE - BORDER COVERAGE PROGRAM
BUREAU FILE 100-434445

Captioned file relates to a highly confidential aspect of the program of Communist Coverage Along the Mexican Border (BOCOV). The BOCOV file (100-356015) is, due to its confidential nature, maintained in the Special Mail Room of the Files Section.

The Counterintelligence - Border Coverage Program file should be given restricted circulation since the existence of that project should not become generally known and the file, therefore, should be maintained in the Special Mail Room of the Files Section. This file should be released only with the approval of the Agent supervising the case.

ACTION:

It is recommended that Bureau file 100-434445 be maintained in the Special Mail Room of the Files Section and that this memorandum be referred to the Records Branch of the Files and Communications Division for appropriate action.

By report 6-16-61, captioned "Anti-Communist Activities in Mexico, Foreign Political Matters," Mexico City advised that an organization was being formed among various Catholic groups to combat communism and by separate letter, same date, Mexico City suggested possibility of using that organization to harass and disrupt the communists.

The new organization at present is loose and has no formal name. It is being set up by prominent members of the Catholic church and by leaders of Catholic political and social organizations. Included in the movement are the National Action Party (PAN) and the National Sinarquist Union (UNS), both of which are at the extreme right in Mexican politics and at various times during World War II were reported to be pro-Fascist.

SA Sheldon W. Parks was introduced to the principal leaders of the new organization by [redacted] informant who is [redacted] Attorney [redacted] one of the principal figures in the new organization, advised that its existence is being kept confidential by the organizers and the actual participation by the clergy is not being publicized for obvious reasons. The organization was responsible for the recent anticommunist demonstration of about 100,000 people in Puebla and has organized an emergency contact system to call out groups of adherents wherever there is a communist threat to a school or a church.

b6
b7C
b7D

[redacted] stated his group is anxious to throw out the corrupt political machines which have held Mexico back for years and to overcome communist influence in Mexico. They consider the present Government to be leftist and hope to place their own adherents in power in the 1964 presidential election. [redacted] stated, however, that they need time to complete their own organization in the event of an emergency which might make it necessary for them to take over the Government by force in order to protect the Government from communism. He strongly urged that his identity and that of other persons connected with the new movement be protected inasmuch as they are in effect involved in a movement against the Mexican Government and could be placed in a very untenable position.

CONFIDENTIAL

Memorandum L'Allier to Sullivan
Re: COUNTERINTELLIGENCE-BORDER COVERAGE PROGRAM
MEXICO CITY OFFICE

~~CONFIDENTIAL~~

[] also stated that his organization has trustworthy news outlets and would appreciate any information which our office might give them which would assist in their anticommunist campaign. The Legal Attache suggests use of this organization to leak information concerning communist activities and pending demonstrations for use in the press or for counterdemonstrations.

b6
b7C

OBSERVATIONS: While the Legal Attache assures that the new group is composed of prominent and well-meaning Mexicans, it is noted that many of them represent the extreme right in Mexican politics and they are apparently preparing for a revolutionary movement against the present Government if they believe it should be necessary. It is not felt, therefore, that our office should have any direct contact with this group or attempt to use them for communist harassment purposes because we should not in any way become involved in Mexican politics or be placed in a position where our office could be expelled from Mexico because of close association with a group which might try to overthrow the Mexican Government by violence.

ACTION: It is recommended that the attached letter be sent to Mexico advising that in view of the political and revolutionary nature of the new organization, no direct contact should be maintained with the leaders which could be used to embarrass our office if such contacts should come to the attention of the Mexican Government and no use should be made of the organization for any counterintelligence operations. Mexico is being instructed, however, to follow closely the developments of the new organization and to continue to submit reports concerning its development.

A review of the investigative report submitted by Mexico concerning the new organization indicates that it has been paraphrased to cover sources and identities and, therefore, memorandum portion of that report is being disseminated to State and Central Intelligence Agency.

~~CONFIDENTIAL~~

To summarize results of successful counterintelligence move conducted in our program of coverage of communist activities along the Mexican border (BOCOV). (C) (U)

Mexico
[redacted] has long been a leader of Communist Party of Mexico (PCM) in the Mexican state of Baja California across the border from San Diego Office. He has exercised strong control of PCM followers in this heavily populated border area and until recently was considered the unquestioned leader of leftists in that state. In October, 1968, San Diego realized from reports of BOCOV informants existence of a dissident group within PCM under Prado and recommended counterintelligence to negate his power. (C) (U)

With Bureau approval handbill was prepared discounting Prado's leadership and pointing out his status as a capitalist millionaire rather than as a "genuine worker" as he attempts to represent himself. Handbills were prepared at Bureau and were distributed clandestinely by a BOCOV informant in the Baja California area. (C) (U)

We have now learned the distribution of the handbill has caused additional dissent among PCM followers and is causing considerable concern on part of Prado as to strength of his leadership. The immediate effect of the handbill has been to dry up sources of financial support previously available to the PCM, this lack of support being readily apparent to national leaders of PCM in view of the current national financial drive by the group. (C) (U)

Despite intense efforts by Prado to determine originator of handbill, our operation continues to remain completely secure. Prado now blames dissatisfied Mexican leftist students and dissident members of his own group for this disruptive action. (C) (U)

Details of the effect of the operation have been disseminated to Department of State, Central Intelligence Agency and the military without identifying our participation in the operation.

None, for information.

General

During review of Counterintelligence Program (COINTELPRO) files necessitated by Freedom of Information Act (FOIA) request at FBIHQ, the above captioned file came to the attention of the San Diego Division. This file, while not one of the primary COINTELPRO files, is a closely related file.

Review of this file reveals that numerous serials contain information which, if disclosed, would be expected to cause damage to relations between the United States and a friendly foreign government.

It is not clear whether this file is one of those which might become subject to public disclosure, but if this is the case, it should be reviewed for classification purposes.

REQUEST OF THE BUREAU

The Bureau is requested to advise whether above captioned case is subject to public disclosure with other COINTELPRO files under FOIA request.

LEADS

SAN DIEGO

COUNTERINTELLIGENCE -
BORDER COVERAGE PROGRAM
(BOCOV)

BUDED: 5/30/75

ReBuairtel to Albany and all offices 12/23/74, captioned "Communist Party, USA; Counterintelligence Program; IS-C," which advised that documents relating to that program had become subject to a Freedom of Information Act request, and instructed recipients to classify their copies of Cointelpro documents classified at FBIHQ. In addition, recipients were to review their Cointelpro files for any additional classifiable documents located in those files, classify them, and notify other offices having copies to likewise classify their copies.

During the course of this review, as well as review concerning other Cointelpros, it has been ascertained that captioned program could be considered a counterintelligence program and thus also subject to disclosure under the Freedom of Information Act.

Re: Counterintelligence -
Border Coverage Program
(BOCOV)
100-434445

Therefore, there is enclosed for each recipient a work paper listing documents appearing in captioned file at FBIHQ which have been classified, and which are located in various field office files. Each recipient is instructed as follows:

Carefully review the work paper to insure that copies of documents classified at FBIHQ, when they are located in a field office, are marked with identical classification data (level, category, classification officer number and date). In all cases, date of declassification is "Indefinite." In classifying a document on a retroactive basis, bear in mind that it is necessary to include the date the document was classified at FBIHQ, and the date the classification is affixed to field copies.

If you have a field office file concerning captioned program, review it to insure all other classifiable documents contained therein are appropriately classified. This will include both intra-office documents as well as documents furnished to other offices. In instances where other offices have been furnished copies of a document, it is the responsibility of the originating office to furnish all recipients of those copies (including FBIHQ, if FBIHQ was furnished a copy) sufficient information so they may classify their copies in the same manner as the originator. If your records indicate an office not a recipient of this airtel has received copies of any of these documents, furnish a copy of this airtel to that office along with your notification to classify its copies.

It will be incumbent upon each recipient to insure that all copies of documents classified in its program file are also appropriately classified if they appear in any of its other office files. Review indices to insure that any other classifiable material in your office concerning captioned program is classified.

Airtel to Albuquerque, et al.
Re: Counterintelligence -
Border Coverage Program
(BOCOV)
100-434445

This project must be assigned only to personnel who are completely familiar with classification rules, and you should refer to the Manual of Rules and Regulations, Part II, Section 4, pages 53 through 57b, for instructions relating to classification procedures.

All inquiries concerning this matter are to be directed to FBIHQ, attention: INTD, IS-3. Questions concerning specific documents listed on work paper must be accompanied by a complete description of the document as well as the line and page number of the work paper on which it appears.

It is expected that you will utilize your own judgment in resolving any problems concerning justification for classification of documents, but if any questions do arise which you feel should be brought to the attention of FBIHQ, these too should be directed to INTD, IS-3.

This project must be handled on an expeditious basis and be completed by 5/30/75. Insure sufficient personnel are assigned to meet this deadline. On or before 5/30/75, FBIHQ must be advised by each recipient of the completion of this project.

NOTE:

Captioned program was implemented in the early 1960's among the southwestern field offices and Legat, Mexico City, and very little activity was conducted. Although no indication was located in Bureau files that the program was ever formally concluded, neither was any indication located that any activities have been conducted under this program since 1968 or early 1969.

We have advised the Department that we would classify internal documents meeting the criteria of E.O. 11652 at such time as they become the object of a request under FOIA, or other efforts are made to effect their disclosure.

NOTE CONTINUED PAGE 4

Airtel to Albuquerque, et al.
Re: Counterintelligence -
Border Coverage Program
(BOCOV)

NOTE CONTINUED:

A broad request has been made by the media for documents relating to our Cointelpros, and although BOCOV was not specifically mentioned in this request, it is felt it would be encompassed by a request for Cointelpro material; therefore, classifiable documents contained in the FBIHQ files concerning this program have been classified, and copies of these documents appearing in other FBIHQ files will also be classified.

This airtel furnishes a workpaper listing these documents to appropriate field offices and instructs them to classify their copies of these documents per data contained in attached workpaper. They are also to review their files for all other documents in this program which are classifiable and to notify any other offices (including FBIHQ) having copies to likewise classify them.

By letter of 4/21/75 to the Attorney General, we advised the Department of the existence of BOCOV, along with the four other recently-discovered Cointelpros (Yugoslav, Cuban, Puerto Rican Nationalist and Hoodwink), and indicated that we were presently classifying, as appropriate, material appearing in our files pertaining to these programs.

COUNTERINTELLIGENCE - BORDER
COVERAGE PROGRAM (BOCOV)

ReBuairtel 4/25/75.

Bureau files disclose Bureau letter to San Diego 1/9/61 captioned "Counterintelligence - Border Coverage Program," copies in possession of above offices. This communication should be classified "~~Secret~~," Classifying Officer 4375, Date of Classification 6/3/75, Exempt from GDS, Category Number 3, Date of Declassification Indefinite.

Recipients classify your copies of 1/9/61 communication as above.

1 - Foreign Liaison Unit (Route through for review)

JDM:dde
(13)

NOTE:

The Attorney General, by letter dated 5/17/75 to Don Edwards, Chairman of the Subcommittee on Civil Rights and Constitutional Rights, advised Edwards of the existence of the five recently discovered Cointelpros (Yugoslav, Cuban, Puerto Rican, Hoodwink and Bocov). The Attorney General in his letter to Edwards advised that he was classifying his letter "~~Secret~~" because he had been advised that disclosure of references to the Mexican, Puerto Rican, Yugoslavian and Cuban operations could damage relations in those areas. Bureau letter to San Diego 1/9/61, referred to in instant airtel, is being furnished to the Attorney General, is being classified "~~Secret~~" and offices in possession of this communication are being advised to classify their copies.

BUDED: 5/30/75

ReBuairtel to AQ, 4/25/75.

In accordance with Bureau instructions in referenced communication, this project has been handled and all documents have been classified in accordance with current Bureau instructions relating to these matters.

A review of El Paso file regarding the captioned matter located a letter to the Director, FBI on letterhead paper dated 2/7/61, to Bufile 100-434445-46, Attention: Foreign Liaison Desk, regarding Counterintelligence Border Coverage Program, prepared by SAC, San Diego.

This 12 page letter is signed by FRANK L. PRICE, SAC, and contains background information regarding Communist organization in Mexico on the San Diego Division border, as well as specific techniques and informants to be utilized in the Counterintelligence Program against these groups and individuals.

Inasmuch ~~SECRET~~ El Paso is not the originator of this material, it is being brought to the attention of the Bureau and San Diego for consideration as to classification.

COUNTERINTELLIGENCE - BORDER
COVERAGE PROGRAM (BOCOV)

ReEPairtel to Bu 6/12/75 and Buairtel to AQ 4/25/75.

For completion of El Paso files, enclosed are single copies of pages 1-6, 8, 9, and 13 of the workpapers relating to referenced Bureau airtel, copy of airtel and pages 7, 10, 11 and 12 already in possession of El Paso.

It should be noted San Diego letter to the Bureau 2/7/61 in captioned matter is listed as item 1 on page 1 of the enclosed workpapers and should be classified "~~Confidential~~," exemption categories 2 and 3, classifying officer 2111, date of classification 2/25/75. El Paso should affix same classification markings on your copies of this communication.

El Paso is now in possession of all pages of workpapers relating to referenced Bureau airtel and communications specifically relating to El Paso appear on pages 1, 7, 10, 11 and 12 of these workpapers.

Memorandum to Mr. [] from []
Re: Classification Matter

b6
b7c

In order to ensure that COINTELPRO material processed under FOIPA, Litigation or any other purpose, is consistent with material previously released and currently located in the FBI FOIPA Reading Room, this memorandum is being placed as a Top Serial, not to be serialized, in each of those original COINTELPRO files. Analysts processing material from this file are placed on notice that the Reading Room copy must also be reviewed to insure that both are marked in a consistent manner. When such a review is complete a notation must be made on the original that it has been compared to the Reading Room copy.
